

Paradox Marketing Solutions Client List Spot Rankers

Keyword Target Groups

Listed On The 1st Page of Google

4/18/2009

When it comes to getting your websites pages indexed on the search engines for the keywords you want , you won't find a company more hands on and dedicated to generating quality long term organic search result indexing and providing valuable search engine placement feedback. Our experts have a great deal of experience in all programming languages and can easily implement the right seo mechanisms needed to optimize your website. Then we can generate targeted traffic to your website based on the keywords you'd select before your would campaign begin by creating quality backlinks to your website pages using the same targeted keywords. We provide ourselves in our ability to communicate your business purpose, product and services to the search engines in a way that is not only creative, but methodical and lasting as well. In the list below you may notice there are multiple instances of mentioning on the 1st indexed page, believe me it's no coincidence.

In most cases we can guarantee 98% placement on the first indexed page for any keyword group within 30-90 days.

Isn't that great?

We think so. Although there are many aspects to this technology, knowing how to get results is key. We hope this short list of our some our successes quenches your thirst for understanding we are a leader in the marketing place when it come to providing professional search engine optimization services.

DiagPlus.com (PR 5)

Campaign Type: Global Product Niche - Campaign
Managed: Manually (Semi-Automated)

This site was previously a PR 1 site. Now coming up in over 500 keyword search term(s) since Jan 1st This was achieved using a customized basic AI program to automate several of the SEO components.
